Mission Statement

STEM is an acronym for Science, Technology, Engineering, and Mathematics. STEM Education refers to initiatives to improve education in these fields starting with K-12, and extending into the post-secondary level. The purpose of the STEM Interest Group is to facilitate communication among SCLA members who are interested in promoting the STEM fields at all levels of education and in all types of libraries.

Goals

- To identify librarians across the state who are invested in providing support in STEM fields
- To facilitate communication among members
- To serve as a clearinghouse for STEM activities
- To learn about services relevant to STEM education in order to make informed referrals to other organizations
