

# Did you know: EBSCO offers a streamlined renewal process online via *EBSCONET*®.

**Save time and resources** by renewing online via *EBSCONET*. EBSCO's online renewal provides a number of benefits that a printed renewal list does not, including pricing updated in real time, access to additional title information, including the previous year's pricing and alternative formats, and much more.

Titles can be flagged to renew, hold or cancel within *EBSCONET*, and can be submitted online to EBSCO. A Cart Summary at the top provides a total of titles set to each status, and updates automatically as changes are made. Search and filter functionality is also available. If you'd like to process your EBSCO renewal online, please contact your Customer Service Representative for setup.

All renewal items are placed in the **Cart**, ready for renewal.

**Cart Summary** shows counts and financial totals for items in the Cart, items on hold, items set to cancel and items already submitted.
