

The latest offerings from Wolters Kluwer

Wolters Kluwer is a leading global provider of information and point-of-care solutions for the healthcare industry. For more information, visit www.wolterskluwer.com.

Ovid®

Ovid is the industry's leading medical research platform—providing a best-in-class search, discovery, and management solution for seamless access to over 8,000 premium online journals, books, and databases from many of the world's premier publishers and societies.

Lippincott® Solutions

Make your job easier with Lippincott Solutions! Our suite of integrated, online software applications will instantly connect your clinicians to the latest evidence-based practice information at the point of care, with information and links for more detailed research and review. Get the right answers even faster by linking directly to your EMR using widgets and info button technology. Provide instant, 24/7 access to the latest evidence-based references for thousands of diseases, conditions, and procedures—enabling faster, more informed decision-making at the point of care, saving you valuable time.

Resources available from Ovid®

ACC CardioSource Plus

Get institutional access to clinically-oriented educational resources and board prep from the American College of Cardiology. This comprehensive educational package combines thousands of self assessment programs, annual meeting presentations, and audio files of heart sounds/murmurs to support cardiologists in medical school, through residency, and on into professional practice.

AudioDigest Platinum

Bring your clinicians a truly convenient and complete multi-media continuing medical education (CME) experience—providing instant online and mobile access to audio files for thousands of lectures and board reviews presented by experts from leading institutions. All content is accredited, independent CME, curated by experienced medical editors.

GIDEON: Global Infectious Diseases and Epidemiology Online Network

The world's premier global infectious disease database, GIDEON is a user-friendly application that allows health professionals to enter patient information, view differential diagnoses, and review treatment options. GIDEON's evidence-based, peer reviewed content makes it ideal for clinicians, educators, policymakers, drug manufacturers and researchers. Now available through Ovid, this multimedia resource covers more than 400 diseases documented in over 200 countries as well as the drugs and vaccines used to treat them.

Ovid® Discovery

A unified, web-scale search interface for the search, discovery, and delivery of biomedical research content from publishers, vendors, aggregators, and thousands of both internal and external resources—driving your user through organizational content delivery work flows in a seamlessly integrated experience. It is easy to adopt and use by any user and helps to increase usage.

Visible Body®

Visible Body is a suite of online programs that cover anatomy, physiology, muscles, the skeleton, and the circulatory system through interactive 3D models, animations, quizzes, augmented reality, and more.

Visible Body® Courseware

Ovid® Visible Body® Courseware is a web-based teaching and learning platform loaded with Visible Body's award-winning 3D anatomy and physiology content.

Visible Body® Physiology & Pathology

Perfect for classroom, clinical, or lab use, Visible Body® Physiology & Pathology—part of Ovid's suite of Visible Body 3D interactive modules—enables students, faculty, clinicians, and researchers to dive deep and explore how core processes of the human body work.

RESOURCES AVAILABLE FROM OVID® (continued)

Biomedical Research Grants—ÜberResearch

Searchable database of awarded research funding that includes more than 600,000 indexed records. The database provides clinical researchers, grant writers, and research funders access to the information they need to forward their goals and inform their strategy.

Ovid MEDLINE®

The world's leading bibliographic source for biomedical scholarly literature and research combines Ovid's trusted precision search and discovery, across more than 29 million citations from over 5,600 indexed, scholarly, and peer-reviewed journals, including ePub Ahead-of-Print, and In-Process.

Embase®

Produced by Elsevier, combined with the power of Ovid search. Provide your users access to over 30 million records, including clinical and evidence-based content, dating back to 1974 and drawn from over 8,500 journals published in 90 countries. Embase is the biggest and most indispensable database for regulatory reporting and regulatory affairs.

JB I EBP Resources

JB I's evidence-based practice model is considered a benchmark in healthcare, encouraging healthcare professionals to implement an effective evidence-based practice program to provide the best possible patient care—evidence-rich content and tools only available on Ovid®!

Valuable Lippincott® Learning Resources

Lippincott Learning Resources will provide your institution with essential resources in health science education covering gross anatomy, physical examination techniques, foundational medical and pharmacy information, and more.
